

Ozone have been used successfully for the conditions listed below. No condition or disease needs to be diagnosed, because our approach addresses the underlying factors causing the symptoms.

<u>Conditions</u>		
	Asthma	Chronic pulmonary disease
Acariasis	Atherosclerosis	Cirrhosis of the liver
Acne	Athlete's foot	Coccidiomycosis
Acrodermatitis	Babesiosis	Colitis
Acute otitis media	Bacterial pneumonia	Colorado tick fever
Acute vestibulopathy	Bartonellosis	Conjunctivitis
Addison's disease	Basalinoma	Contact dermatitis
Adenocarcinoma	Bell palsy	Coronavirus
Adenovirus	Bornholm myalgia	Crohn's disease
AIDS	Botulism	Cryptococcosis
Allergies	Bronchial aspergillus	Cryptosporidiosis
Alopecia	Bronchitis	Cutaneous larva migrans
ALS	Bronchospasm	Cystitis
Alzheimer's disease	Brucellosis	Cytomegalovirus
Amebiasis	Bullous pemphigus	Dengue fever
Amenorrhea	Burkit lymphoma	Dermatitis
Amyloidosis	Cancer of all types	Diabetes
Anal fissures	Candidiasis	Diverticulitis
Anemia	Carbuncles	Echovirus
Angina	Cavernous sinus thrombosis	Eczema
Angioderma	Cellulitis	Ehrlichiosis
Ankylosing spondylitis	Cerebral atrophy	Emphysema
Anthrax	Cerebro vascular accident	Encephalitis
Apthous stomatitis	Chagas disease	Encephalomyelitis
Arterial occlusion	Chicken pox	Endocarditis
Arteriosclerosis	Chlamydia	Endometritis
Arthritis	Cholecystitis	Endothalmitis
Arthrosis	Chronic pain	Enteric fever

Enteritis necroticans	Hemorrhage	Macular degeneration
Environmental sensitivity	Hemorrhagic fever	Malaria
Epidermoid carcinoma	Hemorrhoids	Mastoiditis
Epidermolytic keratosis	Hepatitis of all types	Measles
Epidermophytosis	Herpes of all types	Melanoma
Epididymitis	Histoplasmosis	Melioidosis
Epstein-Barr virus	HIV/HTLV	Meniere's disease
Erysipelas	Huntingdon's chorea	Meningitis
Erythema migrans	Hypercholesterolemia	Migraine
Flavivirus	Hypersensitivity	Molloscum ecthyma
Folliculitis	Hyperthyroidism	Mononucleosis
Food poisoning	Hypotension	Morbilloform
Fulminant varicella	Ichthyosis	Multiple sclerosis
Furuncle	Ileitis	Mumps
Gangrene	Impetigo	Myalgia
Genital warts	Influenza	Myasthenia gravis
Giardiasis	Landry syndrome	Mycobacterium
Glaucoma	Lassa fever	Mycosis
Glioma	Leishmaniasis	Myelitis
Glomerular disease	Leptospirosis	Myocarditis
Glomerulonephritis	Leukemia	Myonecrosis
Goodpasture syndrome	Leukoencephalopathy	Myositis
Gout	Leukopenia	Neurodermatitis
Grave's disease	Listeriosis	Neutropenia colitis
Guillane-Barre syndrome	Lupus erythematosus	Ocular trachoma
Hairy leukoplakia	Lyme disease	Optic neuritis
Heart arrhythmia	Lymphoedema	Oral erythema
Heart disease	Lymphogranuloma	Orbital cellulitis
Hematoma	Lymphoid pneumonia	Orchitis
Hemolytic anemia	Lymphoma	Osteomyelitis

Osteoporosis	Reynold's syndrome	Thrombophlebitis
Osteosarcoma	Rheumatism	Thyroiditis
Otitis media	Rheumatoid arthritis	Tinea versicolor
Otosclerosis	Rhinitis	Tinnitus
P.I.D.	Rift Valley fever	Togavirus
Pancreatitis	Rubella	Tourette's Syndrome
Panniculitis	Salmonella	Toxic amblyopia
Papillitis	Salpingitis	Toxoplasmosis
Parainfluenza	Scabies	Traveler's diarrhea
Parkinson's disease	Scleroderma	Trench fever
Pediculosis	Senile dementia	Trypanosomiasis
Pemphigoid	Sennutsu fever	Tuberculosis
Pernicious anemia	Septicemia	Tularemia
Pneumocytosis	Shingles	Ulcers
Pneumonia	Shock	Urethritis
Poliomyelitis	Sickle cell anemia	Urticaria
Polyarteritis	Sinusitis	Uterine spasm
Polyoma virus	Skin burns	Uveitis
Postpartum fever	Spinalioma	Varicella pneumonia
Proctitis	Staphylococcus	Varicose veins
Prostate enlargement	Stomatitis	Vascular retinopathy
Prurigo	Striatonigral degen.	Vasculitis
Psoriasis	Stroke	Warts
Pulmonary toxiplasis	Syphilis	Wegener granuloma
Pyoderma	T. cruzi	
Rabies	Tardive dyskinesia	
Radiculoneuritis	Tendinitis	
Relapsing fever	Tetanus	
Retinitis pigmentosa	Thoracic zygomycosis	
Reynaud's disease	Thrombopenic purpura
